

TERRE FORTI, SANGIOVESE RUBICONE, 2017

Wine Introduction

Terre Forti is a range of authentic wines from Caviro, the leading Italian cooperative. As a pioneer in Italy, their producers often work land passed down generation to generation. They know where their roots are, and in balance with the environment, they grow in unison.

Tasting Notes

Russet red in the glass and velvety on the palate, this dry, medium-bodied Sangiovese marries forest fruits and sour cherry, with a fragrant touch of cloves on the nose.

Winery Background

Since Caviro began as a farming cooperative in 1966, their mission has been to bring the greatest possible value to the grapes their growers produce. Always aligned with their core values of quality, minimized environmental impact, and reliability they have continually developed to create their integrated supply chain- from vineyard, to bottling, to you, and all the steps in between. Caviro is proud today to represent Italy on the global stage.

Sustainability Note

Check their website on natural ingredients & sustainable innovation:
